

Task Name	Person Name	Assigned Based on Skill	Additional Training/Experience	Current Non-Task Activities	Years of Experience	Leaves Taken
Optimize supply chain logistics	Priya	Well-versed in market research, Excel dashboards, and BI tools	Published a paper on neural networks	Collaborating with HR for onboarding process	7	10
Conduct market trend analysis	Ayesha	Excellent in Adobe Illustrator, branding, and layout design	Working on a personal finance tracker app	Collaborating with HR for onboarding process	2	30
Set up cloud infrastructure	Sanya	Experienced in writing user manuals and technical guides	Also learning Japanese	Planning the employee recognition event	16	13
Design a new company logo	Sanya	Excellent in Adobe Illustrator, branding, and layout design	Working on a personal finance tracker app	Planning the employee recognition event	12	9
Optimize supply chain logistics	Tarun	Certified in AWS, DevOps, and containerization tools	Learning about carbon-neutral operations	Planning the employee recognition event	12	14
Create digital marketing strategy	Ayesha	Expert in Python, Excel VBA, and financial modeling	Published a paper on neural networks	Assisting in internal newsletter editing	13	5
Optimize supply chain logistics	Rohan	Skilled in Figma, UX design, and prototyping	Completed a course on Agile methodology	Leading the company's wellness program	16	17
Build a machine learning pipeline	Neha	Well-versed in market research, Excel	Completed a bootcamp on design thinking	Assisting in internal newsletter editing	6	26

		dashboards, and BI tools				
Design a mobile app UI	Rohan	Expert in Python, Excel VBA, and financial modeling	Learning about carbon-neutral operations	Mentoring junior interns	4	12
Build a machine learning pipeline	Tarun	Trained in logistics modeling, data analytics, and SAP	Attended a webinar on green finance	Contributing to the knowledge base wiki	4	28
Build a machine learning pipeline	Sanya	Well-versed in market research, Excel dashboards, and BI tools	Attended a webinar on green finance	Volunteering for office rebranding	2	16
Automate financial reporting	Vikram	Experienced with Node.js, MongoDB, and RESTful services	Also learning Japanese	Working on a team culture initiative	10	11
Design a mobile app UI	Aysha	Proficient in Python, scikit-learn, and model validation	Enrolled in a PMP certification course	Assisting in internal newsletter editing	6	12
Design a mobile app UI	Arjun	Proficient in Python, scikit-learn, and model validation	Published a paper on neural networks	Mentoring junior interns	6	14
Design a mobile app UI	Neha	Strong in SEO, content strategy, and analytics tools	Completed a course on Agile methodology	Contributing to the knowledge base wiki	7	10
Design a mobile app UI	Vikram	Experienced in writing user manuals and technical guides	Published a paper on neural networks	Leading the company's wellness program	15	23
Build a machine learning pipeline	Divya	Trained in logistics modeling, data	Published a paper on neural networks	Participating in the CSR committee	14	8

		analytics, and SAP				
Optimize supply chain logistics	Neha	Well-versed in market research, Excel dashboards, and BI tools	Completed a course on Agile methodology	Collaborating with HR for onboarding process	14	16
Conduct market trend analysis	Vikram	Experienced with Node.js, MongoDB, and RESTful services	Attended a webinar on green finance	Planning the employee recognition event	20	22
Optimize supply chain logistics	Karthik	Experienced with Node.js, MongoDB, and RESTful services	Working on a personal finance tracker app	Volunteering for office rebranding	19	15
Set up cloud infrastructure	Tarun	Trained in logistics modeling, data analytics, and SAP	Published a paper on neural networks	Mentoring junior interns	19	11
Build a machine learning pipeline	Aysha	Proficient in Python, scikit-learn, and model validation	Completed a bootcamp on design thinking	Leading the company's wellness program	12	18
Design a mobile app UI	Tarun	Proficient in Python, scikit-learn, and model validation	Published a paper on neural networks	Mentoring junior interns	1	16
Optimize supply chain logistics	Rohan	Experienced in writing user manuals and technical guides	Learning about carbon-neutral operations	Planning the employee recognition event	18	14
Develop website backend API	Arjun	Strong in SEO, content strategy, and analytics tools	Completed a bootcamp on design thinking	Collaborating with HR for onboarding process	5	15
Optimize supply chain logistics	Vikram	Experienced with Node.js, MongoDB, and RESTful services	Writing a blog on cybersecurity trends	Helping organize the annual tech meet	20	30

Create digital marketing strategy	Arjun	Experienced in writing user manuals and technical guides	Attended a webinar on green finance	Collaborating with HR for onboarding process	10	6
Write technical documentation	Tarun	Skilled in Figma, UX design, and prototyping	Attended a webinar on green finance	Leading the company's wellness program	5	9
Automate financial reporting	Ayesh a	Certified in AWS, DevOps, and containerization tools	Completed a bootcamp on design thinking	Collaborating with HR for onboarding process	18	11
Create digital marketing strategy	Priya	Skilled in Figma, UX design, and prototyping	Learning about carbon-neutral operations	Volunteering for office rebranding	20	30
Create digital marketing strategy	Vikram	Trained in logistics modeling, data analytics, and SAP	Attended a webinar on green finance	Planning the employee recognition event	20	29
Automate financial reporting	Karthik	Proficient in Python, scikit-learn, and model validation	Enrolled in a PMP certification course	Helping organize the annual tech meet	17	15
Set up cloud infrastructure	Tarun	Well-versed in market research, Excel dashboards, and BI tools	Writing a blog on cybersecurity trends	Participating in the CSR committee	20	30
Write technical documentation	Tarun	Strong in SEO, content strategy, and analytics tools	Learning about carbon-neutral operations	Planning the employee recognition event	1	14
Write technical documentation	Sanya	Strong in SEO, content strategy, and analytics tools	Working on a personal finance tracker app	Working on a team culture initiative	1	20

Optimize supply chain logistics	Priya	Expert in Python, Excel VBA, and financial modeling	Working on a personal finance tracker app	Collaborating with HR for onboarding process	16	12
Conduct market trend analysis	Vikram	Excellent in Adobe Illustrator, branding, and layout design	Learning about carbon-neutral operations	Planning the employee recognition event	20	16
Automate financial reporting	Vikram	Trained in logistics modeling, data analytics, and SAP	Writing a blog on cybersecurity trends	Planning the employee recognition event	6	24
Create digital marketing strategy	Vikram	Expert in Python, Excel VBA, and financial modeling	Completed a bootcamp on design thinking	Collaborating with HR for onboarding process	2	7
Build a machine learning pipeline	Arjun	Experienced in writing user manuals and technical guides	Working on a personal finance tracker app	Planning the employee recognition event	16	17
Automate financial reporting	Neha	Strong in SEO, content strategy, and analytics tools	Attended a webinar on green finance	Assisting in internal newsletter editing	18	14
Conduct market trend analysis	Karthik	Proficient in Python, scikit-learn, and model validation	Also learning Japanese	Participating in the CSR committee	3	17
Write technical documentation	Neha	Certified in AWS, DevOps, and containerization tools	Enrolled in a PMP certification course	Helping organize the annual tech meet	14	16
Develop website backend API	Tarun	Expert in Python, Excel VBA, and financial modeling	Learning about carbon-neutral operations	Collaborating with HR for onboarding process	12	21

Design a new company logo	Tarun	Skilled in Figma, UX design, and prototyping	Learning about carbon-neutral operations	Assisting in internal newsletter editing	16	6
Create digital marketing strategy	Vikram	Experienced with Node.js, MongoDB, and RESTful services	Attended a webinar on green finance	Assisting in internal newsletter editing	17	21
Create digital marketing strategy	Sanya	Well-versed in market research, Excel dashboards, and BI tools	Also learning Japanese	Working on a team culture initiative	11	17
Set up cloud infrastructure	Ayesh a	Excellent in Adobe Illustrator, branding, and layout design	Published a paper on neural networks	Contributing to the knowledge base wiki	14	18
Set up cloud infrastructure	Karthik	Experienced with Node.js, MongoDB, and RESTful services	Writing a blog on cybersecurity trends	Working on a team culture initiative	12	8
Build a machine learning pipeline	Ayesh a	Proficient in Python, scikit-learn, and model validation	Attended a webinar on green finance	Helping organize the annual tech meet	7	26
Optimize supply chain logistics	Neha	Experienced in writing user manuals and technical guides	Enrolled in a PMP certification course	Leading the company's wellness program	12	6
Optimize supply chain logistics	Sanya	Expert in Python, Excel VBA, and financial modeling	Attended a webinar on green finance	Mentoring junior interns	8	17
Design a new company logo	Vikram	Experienced with Node.js, MongoDB, and RESTful services	Completed a course on Agile methodology	Helping organize the annual tech meet	16	27
Develop website backend API	Tarun	Well-versed in market research,	Completed a bootcamp on design thinking	Collaborating with HR for	4	26

		Excel dashboards, and BI tools		onboarding process		
Build a machine learning pipeline	Neha	Experienced with Node.js, MongoDB, and RESTful services	Working on a personal finance tracker app	Mentoring junior interns	17	9
Write technical documentation	Divya	Experienced with Node.js, MongoDB, and RESTful services	Working on a personal finance tracker app	Working on a team culture initiative	10	10
Conduct market trend analysis	Neha	Excellent in Adobe Illustrator, branding, and layout design	Also learning Japanese	Collaborating with HR for onboarding process	1	29
Optimize supply chain logistics	Ayesh a	Trained in logistics modeling, data analytics, and SAP	Published a paper on neural networks	Volunteering for office rebranding	16	19
Design a new company logo	Tarun	Expert in Python, Excel VBA, and financial modeling	Completed a course on Agile methodology	Planning the employee recognition event	8	28
Optimize supply chain logistics	Divya	Trained in logistics modeling, data analytics, and SAP	Learning about carbon-neutral operations	Helping organize the annual tech meet	19	22
Set up cloud infrastructure	Arjun	Excellent in Adobe Illustrator, branding, and layout design	Researching user behavior analytics	Leading the company's wellness program	1	8
Set up cloud infrastructure	Divya	Proficient in Python, scikit-learn, and model validation	Enrolled in a PMP certification course	Helping organize the annual tech meet	16	27

Build a machine learning pipeline	Ayeshah	Experienced with Node.js, MongoDB, and RESTful services	Working on a personal finance tracker app	Working on a team culture initiative	14	14
Optimize supply chain logistics	Ayeshah	Expert in Python, Excel VBA, and financial modeling	Completed a course on Agile methodology	Leading the company's wellness program	19	25
Automate financial reporting	Karthik	Experienced with Node.js, MongoDB, and RESTful services	Researching user behavior analytics	Collaborating with HR for onboarding process	16	12

Automate financial reporting	Neha	Well-versed in market research, Excel dashboards, and BI tools	Researching user behavior analytics	Collaborating with HR for onboarding process	14	5
Automate financial reporting	Neha	Trained in logistics modeling, data analytics, and SAP	Also learning Japanese	Mentoring junior interns	7	21
Develop website backend API	Arjun	Experienced with Node.js, MongoDB, and RESTful services	Completed a bootcamp on design thinking	Helping organize the annual tech meet	14	30
Design a new company logo	Divya	Experienced with Node.js, MongoDB, and RESTful services	Enrolled in a PMP certification course	Helping organize the annual tech meet	11	26
Write technical documentation	Tarun	Proficient in Python, scikit-learn, and model validation	Learning about carbon-neutral operations	Contributing to the knowledge base wiki	9	11
Create digital marketing strategy	Tarun	Strong in SEO, content strategy, and analytics tools	Completed a bootcamp on design thinking	Working on a team culture initiative	7	17
Design a new company logo	Ayesh a	Trained in logistics modeling, data analytics, and SAP	Researching user behavior analytics	Mentoring junior interns	12	20
Design a new company logo	Arjun	Expert in Python, Excel VBA, and financial modeling	Researching user behavior analytics	Participating in the CSR committee	1	10
Optimize supply chain logistics	Vikram	Well-versed in market research, Excel dashboards, and BI tools	Working on a personal finance tracker app	Volunteering for office rebranding	14	16

Optimize supply chain logistics	Karthik	Skilled in Figma, UX design, and prototyping	Also learning Japanese	Helping organize the annual tech meet	18	22
Set up cloud infrastructure	Neha	Certified in AWS, DevOps, and containerization tools	Learning about carbon-neutral operations	Working on a team culture initiative	17	25
Design a mobile app UI	Divya	Trained in logistics modeling, data analytics, and SAP	Completed a bootcamp on design thinking	Collaborating with HR for onboarding process	13	25
Write technical documentation	Rohan	Trained in logistics modeling, data analytics, and SAP	Researching user behavior analytics	Helping organize the annual tech meet	3	14
Write technical documentation	Rohan	Well-versed in market research, Excel dashboards, and BI tools	Attended a webinar on green finance	Leading the company's wellness program	16	19
Create digital marketing strategy	Aysha	Certified in AWS, DevOps, and containerization tools	Enrolled in a PMP certification course	Helping organize the annual tech meet	17	22
Set up cloud infrastructure	Priya	Excellent in Adobe Illustrator, branding, and layout design	Also learning Japanese	Collaborating with HR for onboarding process	5	27
Write technical documentation	Neha	Excellent in Adobe Illustrator, branding, and layout design	Learning about carbon-neutral operations	Mentoring junior interns	8	26
Write technical documentation	Sanya	Expert in Python, Excel VBA, and financial modeling	Also learning Japanese	Participating in the CSR committee	4	5

Create digital marketing strategy	Ayesh a	Trained in logistics modeling, data analytics, and SAP	Learning about carbon-neutral operations	Contributing to the knowledge base wiki	11	26
Set up cloud infrastructure	Rohan	Experienced in writing user manuals and technical guides	Also learning Japanese	Participating in the CSR committee	8	15
Conduct market trend analysis	Divya	Trained in logistics modeling, data analytics, and SAP	Researching user behavior analytics	Helping organize the annual tech meet	17	9
Build a machine learning pipeline	Sanya	Expert in Python, Excel VBA, and financial modeling	Working on a personal finance tracker app	Helping organize the annual tech meet	8	17
Conduct market trend analysis	Tarun	Trained in logistics modeling, data analytics, and SAP	Learning about carbon-neutral operations	Assisting in internal newsletter editing	20	5
Write technical documentation	Arjun	Experienced in writing user manuals and technical guides	Learning about carbon-neutral operations	Volunteering for office rebranding	16	18
Write technical documentation	Neha	Experienced in writing user manuals and technical guides	Published a paper on neural networks	Collaborating with HR for onboarding process	17	8
Set up cloud infrastructure	Ayesh a	Certified in AWS, DevOps, and containerization tools	Completed a course on Agile methodology	Participating in the CSR committee	19	5
Set up cloud infrastructure	Rohan	Experienced with Node.js, MongoDB, and RESTful services	Enrolled in a PMP certification course	Mentoring junior interns	3	23

Design a mobile app UI	Karthik	Experienced with Node.js, MongoDB, and RESTful services	Enrolled in a PMP certification course	Leading the company's wellness program	2	10
Conduct market trend analysis	Divya	Experienced in writing user manuals and technical guides	Completed a course on Agile methodology	Volunteering for office rebranding	11	5
